At the outset, the Convenor welcomes all members present in the meeting and starts discussion on the following agendas:

Agenda1: Further plan of MOOCs Committee for present semester

NPTEL courses for the current semester were reviewed, and it was decided to display them on the college notice board. Members were asked to ensure students are well informed about available courses and credit points, and encouraged to complete enough courses to qualify for a B.Tech (Honors) degree. Concerns were raised about invalid certificates from unreliable online platforms. To address this, students must now obtain approval from their department's faculty-in-charge before enrolling in any MOOC. Only approved courses will count toward requirements. A formal proposal has been submitted to the Principal, and updated guidelines will be shared upon approval.

Agenda 2: Inform about the NPTEL course registration for the current session

NPTEL course registration for the current session is now open. Students are advised to review the available courses and register at the earliest. Please ensure you select courses relevant to your program and obtain approval from your department's faculty-in-charge before enrolling, as only approved courses will be considered valid for credit and B.Tech (Honors) requirements.
